Aden: 6th Oct., 2008.

PORT CIRCULAR

TO: ALL SHIPPING AGENTS IN THE PORT OF ADEN.

SUBJECT: PORT-TUG FEES FOR TUGS TOWING BARGES.

Tugs calling at the port for bunkering and other purposes while towing barges astern shall be attended to by port-tugs before entering the approach channel leading to the inner harbour. Such attendance, whereby the tug will be secured to the stern of the barge for steering it, is deemed essential for avoiding any kind of contact between the barges being towed and the navigational buoys marking the approach channel. When sailing out from the port, the port-tug will again escort the barge until well clear from the channel.

For providing this extraordinary service, the tug-fee leviable will be that applicable for special towage in the outer harbour for a maximum period of two hours. Where the use of a second tug becomes necessary for assisting in berthing, the fee for such shall be chargeable as for tending to normal manoeuvring.

Further more, it may be necessary to transfer personnel from the towing tug to the barge which is normally unmanned, using a port launch for which a lumpsum of US\$ 50/- will be charged.

For the purpose of having a correct estimate of fees for port-tugs that will be used in the manoeuvring, shipping agents are advised to coordinate all tug calls to Aden with the undersigned well in advance of their arrival.

Best regards.

Port Officer – Port of Aden.

- CC: 1. Executive Chairman.
2. Deputy Exec. Chairman.
3. Aden Harbour Control.
4. All pilots.
